

## Extended Share Recording Form

Complete this form each time you do an extended share in your PLC. Then send your form electronically to Mary. Extended shares will be added to our Workshop Model website. Refer to the example below if needed.

Name: Paper Plate Quick Writes

Source: Dawn Deffenbaugh, 5<sup>th</sup> Grade

Grade Level: K-5

Description: This is a writing strategy that could be adapted for any grade level. The teacher glues pictures onto the back of paper plates. They could be pictures of something you are studying (which would help students build in vocabulary practice as well) or they could be random pictures. Then, have the students write a short story to go along with the picture. Could be expanded upon and taken further along in the writing process as well.

Additional Resources: None (some extended shares may include a graphic organizer, website, etc.)
